National Leadership Program June 21–27, 2026

A moment to grow, build community, and broaden horizons.

www.FeyVida.org

¿What is the National Leadership Program?

It is an annual pastoral formation gathering that brings together leaders, youth, mentors, and pastoral agents in youth ministry, family ministry, and Hispanic ministry to deepen their evangelizing mission.

The National Leadership Program takes place at Lewis University – Romeoville, IL

30th National Symposium on Pastoral Juvenil

It offers a theoretical-practical training process with the theological-pastoral model "Prophets of Hope", through which the participant is given a vision of the Hispanic Ministry with young people, an integral community experience, and a living of faith.

Intensive Training for Liturgical and Pastoral Musicians

Let us Sing to the Lord offer training that encompasses everything from musical technique to human and spiritual integration, enabling participants to serve with greater sensitivity and competence in the liturgy.

Casting into the deep: Training for the mission

This seminar encourages Church leaders to deepen their personal encounter with Christ, rediscover the joy of service, and strengthen their identity as missionary disciples. Through a comprehensive formation program that combines a living and transformative experience, participants rediscover their place in the Church's evangelizing mission, bringing light and hope to their families, workplaces, society, and parish communities.

Digital Evangelization: Mission, Community, and Holiness in the Digital Age

Digital Evangelization presents an updated vision of digital evangelism for Hispanic leaders, integrating communication, mission, and pastoral care in the digital environment. It helps participants use digital platforms ethically, effectively, and with a missionary focus to connect with, accompany, and build faith communities.

Emotions, Spirituality and the Gospel

This seminar offers a path of holistic growth in which the Word of God and the human sciences intertwine to illuminate the mystery of the human person. Through a methodology that combines daily prayer, theological reflection, and psychological analysis, it seeks to delve into the various dimensions of the human being.

Why go to NLP?

- ★ Spiritual growth
- ★ Theological formation
- ★ Community experience
- ★ Networking
- ★ Ministerial renewal
